Education

-
- | | |
|--|---------------|
| . Bachelor of Technology in Computer Science and Engineering | 2022-2026 |
| Nalla Narasimha Reddy Educational Society's Group of Institutions, Hyderabad | CGPA: 8.7/10 |
| . Intermediate in MPC | 2020-2022 |
| Sri Sai Vignan Bharti Junior and Degree College for Women, Hyderabad | CGPA: 8.10/10 |

Personal Projects

-
- | | |
|--|--|
| . Lie Detection System Using Microexpressions and Voice Analysis | Python, TensorFlow, CNN, LSTM, OpenCV, Streamlit |
| Developed a real-time lie detection system that analyzes facial microexpressions and voice patterns to estimate deception probability. | |
| – Implemented CNN and LSTM models using the FER2013 and RAVDESS datasets for facial emotion recognition and voice stress analysis. | |
| – Built an interactive Streamlit dashboard for real-time prediction, visualization, and performance monitoring. | |
-
- | | |
|--|--|
| . Optimized Task Scheduling in Heterogeneous Cloud Environment Through Deep Reinforcement Learning | Python, Deep Reinforcement Learning, CloudSim, Streamlit |
| Developed a Deep Reinforcement Learning-based task scheduler to optimize resource allocation in heterogeneous cloud environments. | |
| – Simulated cloud workloads using CloudSim and compared the proposed approach with traditional scheduling algorithms such as FCFS and Round Robin. | |
| – Evaluated performance based on makespan, resource utilization, execution cost, and load balancing through an interactive Streamlit dashboard. | |

Experience

-
- | | |
|---|-----------------|
| . Virtual Internship in Generative AI | July – Sep 2024 |
| EduSkills | Online |
| – Upcoming focused on Generative AI, gaining hands on experienced in by working with Large Language Models (LLMs), prompt engineering, and AI-powered applications. | |
| . skill development program on Power BI | Jan 2023 |
| Technology Learning Center | Hyderabad |
| – Gaining knowledge in data visualization and dashboard creation. Developed skills in transforming raw data into meaningful insights using business intelligence tools. | |
| . Data Analytics course | Oct 2023 |
| Infosys Foundation | Hyderabad |
| – learning data analysis, visualization, and interpretation techniques. Gained practical exposure to analytical tools and methods for deriving insights from datasets. | |

Technical Skills and Interests

Languages: Basis of C, Python, Java,

Web Dev Tools: NetBeans, VS Code, Power BI, Eclipse

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability, Leadership, Time Management
